

SportsAgenda 1.00.02 - December 19th 2008

1.00.02

SportsAgenda

1. Export of GPX file for a test (for SportTracks and other software).
2. SubVersion description for firmware version in additional info.
3. Export of CSV file for a test (for Training Peaks).

Download

1. Fixed bugs: the fields athlete, test comments and firmware subversion were missing in .drk file.
2. Fixed bug about measures with sampling rate over then 2Hz and not coming from GPS (like Acc_x, Acc_y, Acc_z).
